Summary

I have held responsible positions in a number of companies specialising in IT services as a programmer. My practical experience includes working in **Frontend Development for more than 2 years** and Database development for 6 years. I am looking for a company willing to offer me a placement among their developers. In return, I would offer my full commitment, and be a pleasant and friendly addition to your team.

Experience

Repay.Me, Berlin
Frontend Developer   3rd Sep 2018 – 15th Jan 2020

- Develop the frontend of the ecommerce website in collaboration with UX designer.
- Extensive use of ISML which is wrapper over HTML, pipelines, webforms and CMS in intershop.
- Help the team take key decisions in technical designs and implementations in frontend area.
- Strong use of **JQuery** and Javascript libraries like bootstrap validator, date picker etc.
- Programming in **React.js** to develop application which has search engine using Bing API, Auth0 authentication.
- Writing Functional and Class Components, Controlled Forms, hooks.
- Developing of SPA and UI components with React.
- Experience in using CSS/LESS, grids, performance optimisation.

- Web Responsive Coding and Asynchronous Programming.
- **Wide use of various API and plugins for various modules like Facebook login, QR code, Ad detection, Data analytics tool etc.**
- **Involved in Code Reviews, Grooming and Retrospective.**

Accenture, Latvia
Application Developer   9th Oct 2017 – 9th Mar 2018

Oracle Cloud Financials ERP (Fusion and SOA) for Auchan

- Customization of Oracle Cloud Finance and Accounting applications for Auchan present in 14 countries.
- I was involved in automation of loading files (e.g. PO, Suppliers, Auto Invoices etc) from Third Party through SOAP Webservices available in Oracle Fusion Application R13.
- I was involved in the Integration Team which was responsible to load and extract data in Cloud Application through SOA. I was also part of defining BPEL processes to consume webservices to extract and upload data in application.
- Testing Webservices using SOAPUI and writing Interface Documents for Fusion Application.
- Playing Business Integration Publisher Role to generate Customized Reports for Clients.

Deutsche Bank, Pune
